For ease of use, Instructors will always see "All Networks" listed as their Network, giving you the ability to mark Grades and Attendance for all Course Offerings you've completed, without having to switch to specific Training or Employer Networks.

*NOTE: If your roles for individual Networks are different (ie. Instructor for one Network, Training Provider for another) you'll see multiple Networks listed, giving you the ability to create Course Offerings for some Networks. To take Attendance and Grades, you'll need to be under All Networks to see the Courses for Networks that are not individually listed.

Course Offerings

As an Instructor, you'll be responsible for marking Attendance and Grades for Course you've instructed. When under the "Course Offerings" tab, you'll see all Offerings that you've been selected as the Instructor for listed:

Active Offerings will be listed at the top – they are upcoming events, events with no registrants, or have already occurred but have not had registrant attendance and/or grades recorded.

 Completed Offerings will be listed at the bottom, and indicate the event has passed, and that all attendance and grade requirements have been met.

You can use the filters at the top of the page to narrow your search field when viewing both Completed and Active Offerings.

Grades and Attendance

To finalize a Course Offering and provide the registrants with access to their certificates, you may need to mark Grades and Attendance for that course. This can be completed by using the "Class Record" button located beside a Course Offering.

You'll see a list of the Learners that were registered for that Course, and two empty columns - Attendance and Grade:

- Save Attendance by clicking in the column one click will give you a positive checkmark (indicating they attended) and clicking on the same column again will give you a negative x (indicating they did not attend).
- Save a **Grade** by clicking in the column associated with a Learner you will be prompted to select Passed or Failed.

Once you have completed marking attendance and grades for all the registrants, confirm your changes by selecting "Save Class Record" in the bottom right of the page. You will then be shown a summary of the changes you made and asked to confirm again.

*NOTE: once you mark attendance and grades, they cannot be edited. If you make a mistake, please reach out to support for help.

*NOTE: You will only be able to access the Class Records of a Course Offering that:

- Is past its start date and time. For example, you can take attendance at 9:01am for a Course Offering scheduled to begin 9:00am that same day.
- Has Learners registered attendance cannot be taken for an empty Offering.
